NOTES

- External walls 10", internal 5". Only two walls sit off the grid: bath 2 south, and the kitchen north wall between row 3 and C16. Both are short 5" partitions on the slab.
- All bed heads to the north. All WCs face north, cistern against the south wall.
- Living, dining and lobby open through 6'-0" sliding doors and 6'-0" x 5'-6" windows.
- Kitchen is a parallel galley, 2'-0" deep slabs, 4'-4" aisle. Hob and sink on the south run, chimney ducting straight out through the south wall. Wet zone at the east end over the stack.
- Bath 1 attached to bedroom 1. Bath 2 opens off the lobby, serving bedroom 2 and visitors.
- Wardrobes recessed into the strip between the bedrooms, so they cost no bedroom floor.
- Stair is common. Flight 3'-3" rises south to north, 3'-9" landing alongside. Arrive north, walk south.
- Entrance gate is at ground level in the north wall below the stair window shown here.
- Portico balcony is an existing cantilever. Railing only, no masonry parapet, no heavy loads.
- Drying terrace uses the existing 3'-0" west projection. Verify slab for 3 kN/sqm, add railing.
- Balconies 1 and 2 form one L around C23. C22 and C23 take biaxial moment, to be checked.
- Flush beam where the C6-C11 line crosses the lobby. New secondary beam on the C16-C18 line from row 3 to C16, under the kitchen wall. Lintel with full bearing at the C24-C25 opening.
- Not shown: electrical points, plumbing runs, structural beam layout. Separate sheets.
